EDUCATION

Bridgewater State University

Expected December 2026

B.S. in Computer Science | Minor in Management — GPA: 3.78/4.0

Leadership & Involvement: Vice President, Women in STEM | Lab Technician, Think Tank Club | Member, Computer Science Club — Bridgewater State University

EXPERIENCE

The Comment (BSU Student Newspaper)

Jan 2024 – Present

Creative Director

Bridgewater, MA

- Own end-to-end layout and design production in Adobe InDesign for 10 biweekly issues per semester, coordinating timelines across a 9-person editorial team.
- Built a standing production calendar with internal buffer deadlines ahead of each print date, reprioritizing content and communicating directly with the Editor-in-Chief and 7 section editors when sections fell behind.
- Maintained a zero-late-issue track record across all 9 issues per semester while serving as the primary point of accountability for visual consistency and quality control.

ZIEN Medical Technologies, LLC

June 2025 – Sep 2025

System Analyst Intern

Boston, MA

- Completed a week-long training on Failure Mode and Effects Analysis (FMEA) methodology before beginning independent risk assessment work.
- Conducted FMEA using a provided spreadsheet template, scoring severity and risk levels for potential device failure modes.
- Collaborated with Quality Engineering to review findings and reported results directly to supervisor for validation.

Think Tank Club | Bridgewater State University

Sep 2025 – May 2026

Lab Technician

Bridgewater, MA

- Trained 20-25 students in one-on-one sessions on safe operation of 3D printers and robotics equipment, from setup through first successful print.
- Adapted hands-on guidance to each student's experience level, troubleshooting print and calibration issues in real time.
- Expanded the lab's pool of independently capable users, reducing reliance on staff supervision for routine print jobs.

Information Technology Division | Bridgewater State University

June 2026 – Aug 2026

IT Outcomes Writer

- Conducted interviews with 4 stakeholders per article to gather firsthand insight for 2 published feature pieces in IT Outcomes.
- Translated technical initiatives into clear, stakeholder-friendly narratives, managing independent editorial cycles of ~6 weeks per assignment.
- Coordinated directly with IT staff to verify accuracy and ensure articles reflected current systems and initiatives.

PROJECTS

Voice-Enabled AI Meeting Room Agent

COMP 490 – Senior Design & Development

<https://github.com/lensigondaliya/lensi-comp490-project1>

- Defined product requirements independently for a voice-driven meeting assistant capable of answering spoken questions in real time.
- Integrated a speech-to-text API to process and transcribe voice input, enabling the assistant to respond to user queries.
- Deployed the application to DigitalOcean with an automated GitHub Actions CI/CD pipeline for continuous deployment.

Content Discovery on Streaming Platforms

Undergraduate Research (URCS)

Bridgewater State University, CS Dept. | Advisor: Poonam Kumari

https://github.com/lensigondaliya/Comp399-Project_IMDb

- Conducted exploratory data analysis on an 85,855-record, 22-attribute IMDb movie dataset to uncover patterns driving film popularity and similarity.
- Cleaned and preprocessed data using missing-value imputation, deduplication, and outlier filtering before applying Decision Tree, KNN, Linear Regression, and K-Means models.
- Tuned K-Means clustering via the elbow method to an optimal K=14; identified vote count and review volume as the strongest popularity predictors via correlation analysis.
- Presented findings at BSU's Undergraduate Research & Creative Scholarship symposium; built a Flask web app to serve the trained classifier for interactive predictions.

TECHNICAL SKILLS

Languages: Python, Java, C, C++, JavaScript, SQL, HTML, Go

Technologies: Flask, scikit-learn, Git, DigitalOcean, GitHub Actions, Adobe InDesign, Jira, Jupyter Notebook, Google Colab, Node.js, React.js, AWS, Google Cloud Platform, APIs, Docker, SQLite
